

# Alex Rivera

Senior Software Engineer · Platform & Infrastructure

alex.rivera@example.com · +1 415 555 0182 · San Francisco, CA · [linkedin.com/in/alex-rivera-eng](#) · [github.com/alexrivera](#)

## APPOINTMENTS

- Veritas Systems · San Francisco, CA**, Staff Platform Engineer 2021 – Present  
Designed and led migration of 120 microservices from EC2 to Kubernetes, reducing infra costs by 38% and improving deployment frequency from weekly to on-demand.
- Meridian Health · Remote**, Senior Software Engineer 2018 – 2021  
Re-architected the claims processing pipeline to event-driven (Kafka), enabling real-time fraud detection and reducing processing lag from 4 hours to under 3 minutes.
- Loopline Technologies · Austin, TX**, Software Engineer 2015 – 2018  
Built core billing infrastructure processing \$2M+ monthly recurring revenue.

## EDUCATION

- University of Texas at Austin**, BSc · Computer Science 2011 – 2015  
Graduated with honours. Teaching assistant for Distributed Systems (CS378) for two semesters.

## SELECTED WORK

- driftwatch**. CLI tool for detecting infrastructure drift between Terraform state and live cloud resources. 600+ GitHub stars.
- k8s-cost-exporter**. Prometheus exporter that surfaces per-namespace and per-deployment cost estimates from cloud billing APIs.

## AWARDS & GRANTS

- Platform Engineering Excellence Award** Veritas Systems · 2023  
Awarded for the IDP project, recognised as the highest-impact internal tooling initiative of the year.
